

# Contacts Dashboard

Contacts Dashboard provides you with a variety of reports and charts to view contact information associated with your account. You can see the contact growth over time, stats of contacts from various sources, [tags](#) assigned to your contacts, [scores](#) allotted, and any [goals](#) achieved.

## To view lead insights for your account:

1. From the *Navigation Toolbar*, choose **Contacts** and click **Contacts Dashboard**.

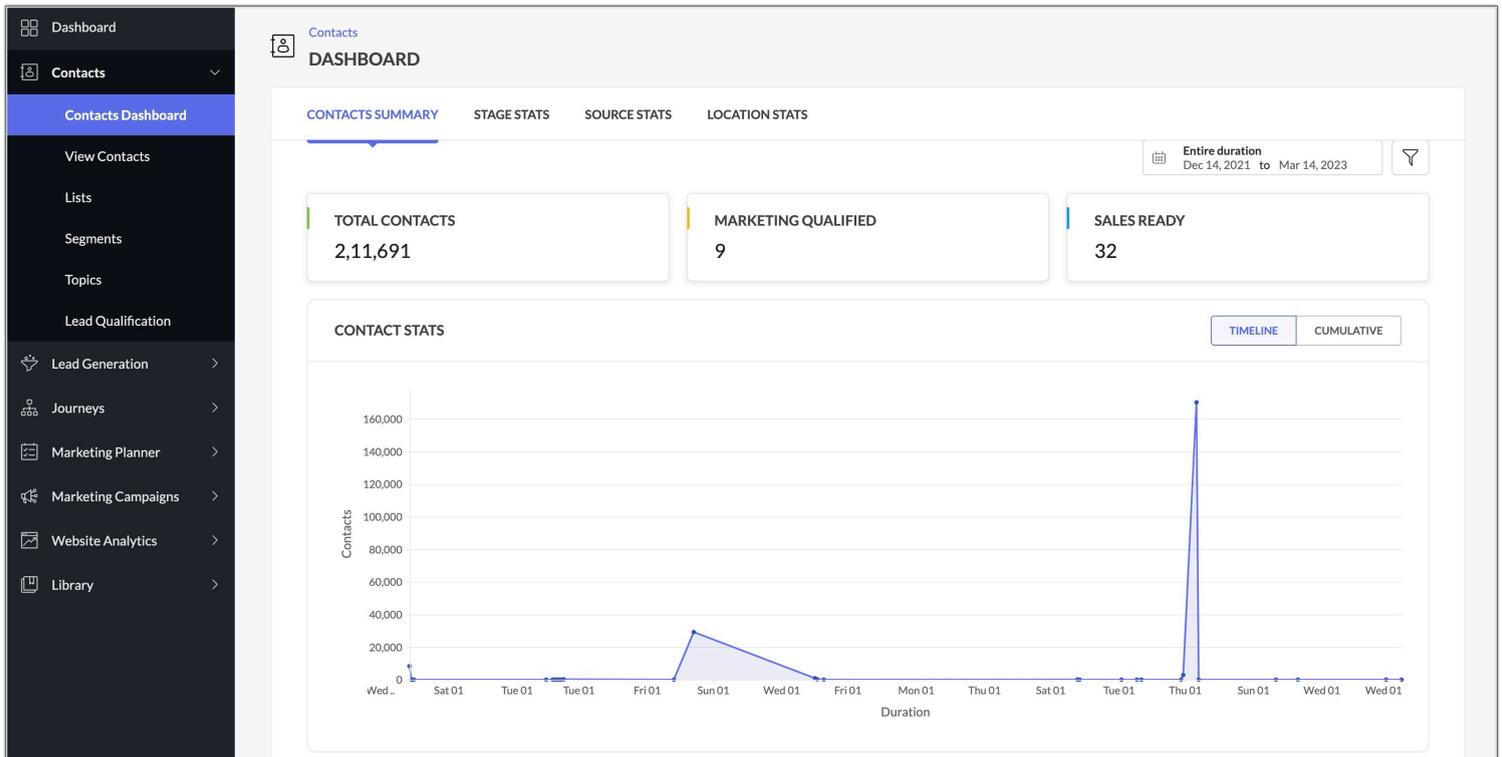

## 2. View various insights such as :

- Contacts summary
- Contact stage stats
- Contact source stats
- Contact count based on source
- Contact distribution based on country

**Note:** You can filter the timeline in all the above sections ranging from days to years. You can also search for a custom time line or for the entire duration of using the product.

# Contacts Summary

Contacts Summary section provides a brief overview of the statistics for all of the contacts added to the organization. You can view details like total contacts added, contacts that are marketing ready and contacts that are [sales ready](#). You can also see a graph of contacts added over a specific time range or a cumulative graph. If you scroll down further, you can find details about the contacts segregated by stages, source, and location respectively.

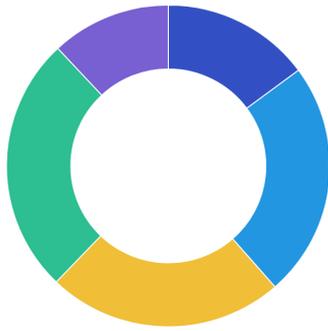

## Stage Stats

This data is derived based on the stages different contacts are at any given point of time. It also displays stats like contact stages attribution and contact stages by time. Using the filter options at far right, you can filter the Contact Stages Attribution section either by Source or by Channel. Similarly, you can filter the Contacts Stages by Time section by Weekly, Yearly, or Monthly basis.

Entire duration  
Aug 31, 2023 to May 29, 2024

CONTACTS BY STAGE

● Raw leads  
9,713 (14.86%)

● Marketing ready  
15,476 (23.68%)

● Marketing engaged  
15,440 (23.63%)
