

Project Custom View

In addition to the predefined views, users can now create their own custom views for projects. Users can customize projects list view based on specific criteria by applying filters. These custom views can be marked favorite by clicking the ★ icon.

Feature Availability: User based Enterprise plan

Use-cases

Marketing: A marketing firm's admin can create a custom view to list only the projects whose budget is more than \$15000.

Software development/ IT: A manager would like to have a separate view to display only the Strict Projects. In this case, the manager can create a custom view.

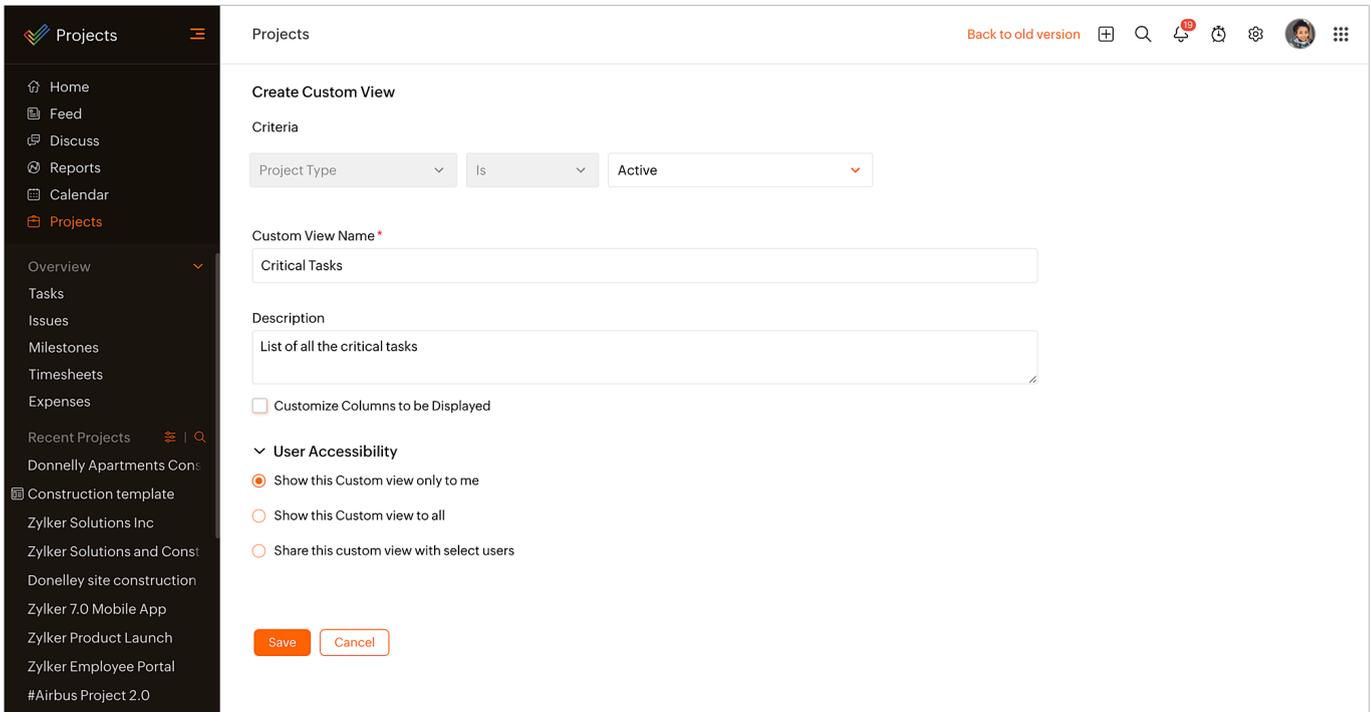

Construction: A construction company owner would like to view all the projects that are getting over this month. This view can be created using the custom view feature.

Benefits

- Use filters to create a view
- Land on the same view with every login
- Mark a view as favorite
- View can be shared with select users, all users, or set for personal use

Create Custom View

1. Click **Projects** in the left navigation panel.
2. Click on the project view drop-down.
3. Select + **Create Custom View**.
4. Select the criteria for your view.
5. Click  to add a criteria and click  to add a group.
 - Click  to delete the criteria.
 - Click  to delete the group.
6. Operators can be used individually or in combination in order to set multiple criteria. There are two types of operators:
 - AND is used when it is mandatory to satisfy all the criteria.
 - OR is used to satisfy an either-or condition.
7. Enter the **Custom View Name**.
8. Enter the *Description* and enable the custom view column if necessary.
9. Select the *Accessibility* and click **Save**.

The screenshot shows the 'Create Custom View' interface. On the left is a dark navigation sidebar with 'Projects' selected. The main area is titled 'Projects' and contains the 'Create Custom View' form. The 'Criteria' section has three dropdowns: 'Project Type', 'Is', and 'Active'. Below this is a text input for 'Custom View Name*' containing 'Critical Tasks'. A larger text area for 'Description' contains 'List of all the critical tasks'. There is a checkbox for 'Customize Columns to be Displayed' which is unchecked. The 'User Accessibility' section is expanded, showing three radio button options: 'Show this Custom view only to me' (selected), 'Show this Custom view to all', and 'Share this custom view with select users'. At the bottom are 'Save' and 'Cancel' buttons.
