

Introduction Page

You can add an introduction page to say something about the topic of your survey. This helps your users to get an idea about the survey before they attempt it. You can enable or disable this in the *Settings* tab. The same introduction page will be used as the homepage of your offline survey. Additionally, any terms and conditions you add will be displayed at the end of the Introduction page.

 The screenshot shows the Zoho Survey interface. At the top, there's a header with the 'Survey' logo, a department dropdown set to 'My Department', and a user profile icon. Below this is a navigation bar with tabs: '+', 'Healthcare Satisfaction S...', 'EDITOR', 'SETTINGS' (which is active), 'THEMES', 'HUB', and 'LAUNCH'. On the right of the navigation bar is a red 'PREVIEW' button. On the left is a sidebar with icons for SUMMARY, BUILDER, REPORTS, EXPORTS, and AUDIT LOGS. The main content area is titled 'Configure and Manage Your Survey Settings' and lists various settings: Header, Footer, Introduction Page (highlighted), Preferences, Terms and Conditions, Timer, Save and Continue Later, Social Media Preview, Survey End Page, Survey Disqualification Page, Response Editing Restriction Page, and Closed Survey Page. The 'Introduction Page' settings are displayed in a white box with a light gray grid background. It includes a 'Header' section with a description 'Add a logo and a title that reflect the brand and motive of your survey'. There is a 'Survey logo' field with a 'BROWSE' button and a note 'Upload JPG or PNG (250px x 85px)'. Below that is the 'Published survey's title' section with two radio buttons: 'Use survey name' (which is selected) and 'Use specific text'. A green 'SAVE' button is at the bottom of the settings box. In the bottom right corner of the interface, there are three small circular icons: a teal one with a document, a red one with a location pin, and a white one with an 'X'.

To add an introduction page:

1. Click **Introduction Page** in the *Settings* tab.
2. Click **Enable**.
3. Fill in the *Title* field.
4. Fill in the *Description* field.
5. If you'd like to change the *Begin Survey button label* text, make changes in the default text as necessary. You can customize the button and add some colour to it in *Themes*.
6. Click **Save**.
