Introduction to Zoho Survey

Zoho Survey was launched to cater to the growing needs of the survey market. Whether you're a business person, a professor, an artist, or a college student, Zoho Survey helps you communicate with a diverse audience. You can now create surveys by using over 25 [question types](#) and 250 multi-lingual survey [templates](#). Customized [themes](#), [integrations](#), and [branding](#) can also add additional value to your surveys.

Why Zoho Survey?

- Create [secure](#) online surveys with over 25 [question types](#) and 250 [templates](#) to choose from
- Collect [offline responses](#) that let you upload survey responses when you're back online
- Add [logic](#) conditions to define how respondents move through questions
- Insert simplified [functions](#) and [logic](#) to gain more from every response
- [Randomize questions](#) and answer options
- [Integrate](#) with Zoho and other third-party apps
- [Translate](#) to over 75 languages
- [Distribute surveys through email](#) and several other ways
- [Purchase responses](#)
