

Test Case Summary

Click a listed test case to view detailed execution results.

The screenshot shows the Zoho Test Case Summary interface for a test plan named "Guest Purchases Plan". The interface includes a sidebar with navigation options like Test Cases, Test Suites, Test Plans, Results, Users, and Settings. The main content area displays a summary of test results: 23 Total Test Cases, 5 Passed, and 18 Failed, resulting in a 22% Success Rate. Below this is a table listing individual test cases with columns for Test Case, Assigned To, Results, Test Suite Name, Start Time, and Duration.

Test Case	Assigned To	Results	Test Suite Name	Start Time	Duration (00h 01m 40s)

1 - The name of the test case being viewed.

2 - The current test case is being run as part of a test plan. In case of a manual test case the status here will be **Manual**.

3 - The status (Completed, Passed, or Failed) of the test case.

4 - The Run button allows you to execute the test case separately (apart from the test plan execution)

5 - The time taken to execute the test case.

6 - The version of the test case which has been executed.

7 - The [agent](#) which was used to execute the test case.

8 - The environment chosen to execute the test case.

9 - The individual steps of the test cases that were executed and the resultant actions.

10 - Details that are required to be printed as a means of ensuring the correctness of the test case execution.

11 - Indicates the self-healed element locators

12 - Filter logs for errors or warnings by filtering them using the options – *All*, *Show Errors*, and *Show Warnings*.

13 - Export the logs for the test case being viewed.

14 - The step-by-step execution of a test case. It can be viewed in fullscreen.

15 - The **View Test Case** button opens the contents of the test case in a separate tab.

16 - The navigation controls allow you to move between the summary of other test cases in the test plan.
