Zoho Corporation

Getting Started with Zoho BugTracker

Zoho BugTracker is an online bug trackting software that helps you manage bugs and deliver defect free products.

What Does Zoho BugTracker Offer ?

Zoho BugTracker helps you record bugs, track and resolve. Create custom views for your bug tracker tool so as to focus on bugs that are the most time sensitive. See how many bugs have been logged, if they've been resolved, and more with reports.

We have different subscription plans that cater to organizations of various sizes. We also offer a free plan with 3 users and 1 project with limited features.

Here are some of the core feature of Zoho BugTracker.

Planning	Projects and Phases help you plan work with ease.
Collaboration	Feeds, Activity stream, Pages, Forum, and Discuss help you to be on the same page with your peers.
Tracking	Reports and Charts help you track work within and across projects easily.
Productivity	Timesheets, Resource utilization chart, and Global Timers help you measure productivity effectively.
Knowledge Management	Documents and Forums help you manage files, discuss within and across teams in your portal with ease.
Effective Billing	Invoices and Expenses help you bill projects by hours and staff and manage project billing meticulously.
Bug Tracking	The Bugs module helps you submit, track, and close bugs in your project.
Integration	Integrate Zoho BugTracker with Bitbucket, Github, Zoho Invoice, Zoho People and many other applications and access data with more fluidity.

Sign Up for Zoho BugTracker and Create Your Portal

To create a new portal...

1. Navigate to **[Zoho BugTracker Sign Up Page](#)**.
2. Enter your **Company Name**. This will be also be your portal name. Your portal name is unique. If a portal with this name already exists, you will be prompted to enter another name.
   - An email ID can be used to create only one portal. Once you create a portal with your email ID you cannot use the same ID to create a new Zoho BugTracker portal.
3. Enter your credentials, choose your region, and sign up to create your Zoho BugTracker portal.
